

Dear Parent/ Carer,

As an academy we are continuously striving to ensure that every child can achieve.

Every aspect of our delivery is based upon allowing your child to reach the maximum potential that they show by gaining confidence in their own independent learning.

As a Sports Department we are working towards allowing pupils to find an activity or sport that they will be retained into once they leave the Academy.

As part of our hard work, we have set up and are delivering an initiative called Sport for Life.

The initiative allows pupils to opt into an activity or sport that they feel will suit their own individual learning.

The activities that are available to pupils this half term include:

Fitness (Clubber size)

Fitness Circuit and Resistance Bands

Gym Programme Development

Team games (including Netball coaching)

Football

Badminton

This half term each pupil will sign up to an activity for an 8-week block.

To be able to take part in the initiative, your son/daughter needs to be able to bring sport kit to the lesson in which they have Sport for Life on their timetable.

The kit consists of the TAG white t-shirt and either shorts or leggings and trainers. We do advise bringing a change of socks as sometimes the weather can be unpredictable.

Please can you remind your child to bring sport kit to ensure they can take part in the lessons.

If your son/ daughter does have a medical reason why they cannot take part in the lesson, please can you ensure that they have a note stating why.

Please can you ask you child to show this to their sport teacher.

If you would like to contact us about any aspect of the letter, please feel free to do so on the Academy telephone number.

Thank you for your continued support.
